### **Program Overview**

Being a leader is more than simply having a title. It is a responsibility to serve the people and the community that have asked you to lead them. At Bear Creek High School we believe that the best way to accept this responsibility is by developing an attitude of service leadership. This leadership program is designed to help guide BCHS Student Leaders into being servant-leaders. It does so through a proven combination of goal setting, mentoring, written expectations, and action. In conjunction with class attendance and participation in sponsored activities, it serves as the cornerstone of Bear Creek's Leadership Program.

### **Vision Statement**

Our vision, as the Student Leaders of Bear Creek High School, is to foster a school environment filled with integrity, enthusiasm, creativity, and dedication while uniting in the common goal of promoting school spirit, diversity, communication, and betterment of our collective body and community.

### **Program Goals**

Goals are derived from our vision statement that all Student Leadership activities work towards:

- Promote an identity of integrity and competency for the student leadership programs and its members
- Support the community of Stockton and Lodi, California
- Develop the ideal of Service Learning in Bear Creek High's student leaders
- Increase all students' connection with Bear Creek High School
- Model Democratic ideals and allow students to participate in Bear Creek High School's affairs
